EXPERIENCE

FREELANCE SOFTWARE DEVELOPER, Self-employed

(Sep 2020 - Present)

I specialize in software development services, offering a wide range of solutions encompassing websites and applications. My portfolio includes diverse projects showcased on my GitHub and website. I leverage various tools and technologies such as WordPress, React, React Native, Expo, TailwindCSS, Next.js, Node.js, Express.js, TypeScript, MongoDB, MySQL, ESLint, Gatsby, Framer Motion, Styled components, Emotion, react-intl, react-query, Axios, GraphQL, React Navigation, Jest, Google Maps API, SASS, Vite, SyncFusion, and more.

My commitment to excellence drives me to continuously enhance my proficiency in these tools while eagerly embracing new ones as the need arises.

TECHNICAL SUPPORT SPECIALIST, INTEL CIA

(Sep 2016 - Sep 2020)

As part of my role, I responded to customer phone calls, prioritizing a deep understanding of their technical requirements. I resolved issues and employed effective customer relationship management techniques to ensure their complete satisfaction. This experience also strengthened my teamwork and ability to thrive in high-pressure situations in the networking and telecommunications sector as well as others.

IT INTERN, SODREA ASSURANCES

(Jul 2014 - Aug 2014)

- **Automated Data Entry:** Improved efficiency by automating data entry tasks using Excel, resulting in faster processing times.
- **Hardware and Software Maintenance:** Managed hardware and software maintenance tasks to ensure seamless operations.
- **Network Maintenance and Troubleshooting:** Oversaw network maintenance and effectively resolved issues through troubleshooting.
- **Customer Contracts:** Welcomed and assisted customers, facilitating the establishment of car insurance contracts.

SKILLS

- Problem-solving
- Software development processes
- JavaScript Ecosystem
- Multilingual
- Team Collaboration
- Continuous Learner
